### Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for **each** of the following positions as indicated below:

1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- Principal Executive Officer/Chief Elected Official
- Duly Authorized Representative
- Local Stormwater Public Contact
- Stormwater Management Program (SWMP) Coordinator
- Report Preparer

**MS4 Annual Report Form**

This report is being submitted for the reporting period ending March 9, 

2	0	1	8
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

Name of MS4/Coalition 

Village of Quogue
-------------------

SPDES ID

N	Y	R	2	0	A	4	5	5
---	---	---	---	---	---	---	---	---

**4. Evaluating Progress Toward Measurable Goals MCM 1**

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

**A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.**

The Village's Public Education and Outreach program will be tailored to describe topics related to the impacts of storm water discharges on local water bodies, pollutants of concern and their sources, and the steps that can be taken to reduce pollutants in storm water runoff and non-storm water discharges. The Village's program will make special note of the discharge of pathogens to the local impaired waters listed in Appendix 2 of the General Permit.

**B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.**

Due to the seasonal nature of many of the residents in the Village, typical Phase II measures are not always effective or efficient. As a result, the Village has chosen to evaluate the number of direct mailings as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements. There was one direct mailing sent in this reporting period related to storm water/pollution prevention.

**C. How many times was this observation measured or evaluated in this reporting period?**

			1
--	--	--	---

*(ex.: samples/participants/events)*

**D. Has your MS4 made progress toward this Measurable Goal during this reporting period?**

Yes  No

**E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?**

Yes  No

**F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).**

The Village plans to continue evaluating the number of direct mailings as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Education and Outreach program requirements in the next reporting cycle. The Village will continue to distribute information related to storm water and/or pollution prevention in the next reporting period.

## MS4 Annual Report Form

This report is being submitted for the reporting period ending March 9, 

2	0	1	8
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

### 7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

#### A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The Village's Public Involvement and Participation program will incorporate stewardship activities that help to reduce pollutants of concern (i.e., the discharge of pathogens to the local impaired waters listed in Appendix 2 of the General Permit) and encourage the general public, residents and businesses to become involved in storm water management and environmental stewardship events.

#### B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Due to the seasonal nature of many of the homes and residents in the Village, typical Phase II measures are not always effective or efficient. As a result, the Village has chosen to evaluate the number of comments received as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements. There were zero comments received in this reporting period on the Village Storm Water Management Program.

#### C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

#### D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes     No

#### E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes     No

#### F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the number of comments received on the Storm Water Management Program as an indicator for measuring the overall effectiveness of the Village's compliance with the Public Involvement and Participation program requirements in the next reporting cycle. The Village will continue to provide the public opportunity to comment on the Storm Water Management Program Plan and Annual Report.

**MS4 Annual Report Form**

This report is being submitted for the reporting period ending March 9, 

2	0	1	8
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

---	---	---	---	---	---	---	---	---

**12. Evaluating Progress Toward Measurable Goals MCM 3**

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

**A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.**

The Village Illicit Discharge Detection and Elimination program will focus on identifying, locating, eliminating, reducing and preventing illicit discharges to the maximum extent practicable, including the discharge of pathogens to the local impaired waters listed in Appendix 2 of the General Permit.

**B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.**

The Village has chosen to evaluate the number of illicit discharges confirmed as an indicator for measuring the overall effectiveness of the Village's compliance with the Illicit Discharge Detection and Elimination program requirements. There were no illicit discharges detected during this reporting period.

**C. How many times was this observation measured or evaluated in this reporting period?**

			1
--	--	--	---

*(ex.: samples/participants/events)*

**D. Has your MS4 made progress toward this measurable goal during this reporting period?**

Yes  No

**E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?**

Yes  No

**F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).**

The Village will continue to follow the procedures for Illicit Discharge Detection and Elimination described in the CWP/USEPA Illicit Discharge Detection and Elimination: A Guidance Manual for Program Development and Technical Assessment. Illicit discharges will be investigated and eliminated according to the authority provided by the Village Illicit Discharges Local Law on a case-by-case basis.

**MS4 Annual Report Form**

This report is being submitted for the reporting period ending March 9,

**Minimum Control Measures 4 and 5.**  
**Construction Site and Post-Construction Control**

The information in this section is being reported (check one):

- On behalf of an individual MS4  
 On behalf of a coalition

How many MS4s contributed to this report? 

--	--	--

**1a. Has each MS4 contributing to this report adopted a law, ordinance or other regulatory mechanism that provides equivalent protection to the NYS SPDES General Permit for Stormwater Discharges from Construction Activities?**  Yes  No

**1b. Has each Town, City and/or Village contributing to this report documented that the law is equivalent to a NYSDEC Sample Local Law for Stormwater Management and Erosion and Sediment Control through either an attorney certification or using the NYSDEC Gap Analysis Workbook?**  Yes  No  NT

If Yes, Towns, Cities and Villages provide date of equivalent NYS Sample Local Law.

09/2004  03/2006  NT

**2. Does your MS4/Coalition have a SWPPP review procedure in place?**  Yes  No

**3. How many Construction Stormwater Pollution Prevention Plans (SWPPPs) have been reviewed in this reporting period?**

		3
--	--	---

**4. Does your MS4/Coalition have a mechanism for receipt and consideration of public comments related to construction SWPPPs?**  Yes  No  NT

If Yes, how many public comments were received during this reporting period? 

		0
--	--	---

**5. Does your MS4/Coalition provide education and training for contractors about the local SWPPP process?**  Yes  No

**6. Identify which of the following types of enforcement actions you used during the reporting period for construction activities, indicate the number of actions, or note those for which you do not have authority:**

N	Y	R	2	0	A	4	5	5
---	---	---	---	---	---	---	---	---

**7. Evaluating Progress Toward Measurable Goals MCM 4**

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

**A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.**

The Village's Construction Site Storm Water Runoff Control program will provide equivalent protection to the NYSDEC SPDES General Permit for Stormwater Discharges from Construction Activity. This includes reviewing SWPPPs submitted to the Village for projects disturbing an acre or greater of land. The review process will take note of any potential discharges of pollutants to the local impaired waters listed in Appendix 2 of the General Permit.

**B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.**

The Village has chosen to evaluate the number of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Storm Water Runoff Control program requirements. The Village reviewed and approved the three SWPPPs submitted to the Village in this reporting period.

**C. How many times was this observation measured or evaluated in this reporting period?**

			1
--	--	--	---

*(ex.: samples/participants/events)*

**D. Has your MS4 made progress toward this measurable goal during this reporting period?**

Yes    No

**E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?**

Yes    No

**F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).**

The Village plans to continue evaluating the number of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Storm Water Runoff Control program requirements in the next reporting cycle. The Village will review SWPPPs as they are submitted to the Village for comment and approval.

**MS4 Annual Report Form**

This report is being submitted for the reporting period ending March 9, 

2	0	1	8
---	---	---	---

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

**6. Evaluating Progress Toward Measurable Goals MCM 5**

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

**A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.**

The Village's Post-Construction Storm Water Management program will address storm water runoff from regulated (i.e., land disturbances of an acre or greater) new development and redevelopment projects to the Village's municipal separate storm sewer system.

**B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.**

The Village will add structural best management practices to the inventory as necessary and plans to evaluate the number of best management practices inventoried as an indicator for measuring the overall effectiveness of the Village's compliance with the Post-Construction Storm Water Management program requirements.

**C. How many times was this observation measured or evaluated in this reporting period?**

			1
--	--	--	---

*(ex.: samples/participants/events)*

**D. Has your MS4 made progress toward this measurable goal during this reporting period?**

Yes    No

**E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?**

Yes    No

**F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).**

The Village plans to continue evaluating the number of post-construction storm water management practices inventoried as an indicator for measuring the overall effectiveness of the Village's compliance with the Post-Construction Storm Water Management program requirements in the next reporting cycle. The Village will add best management practices to the inventory as necessary in the next reporting cycle.

### Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report? 

--	--	--

**1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.**

<u>Operation/Activity/Facility</u>	<u>Addressed in SWMP?</u>		<u>Self-Assessment Operation/Activity/Facility performed within the past 3 years?</u>

**7. Evaluating Progress Toward Measurable Goals MCM 6**

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

**A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.**

The Village Pollution Prevention and Good Housekeeping for Municipal Operations program will address operations that collect, store or release sediments, wastes or other potential pollutants with special consideration for discharge of pathogens to the local impaired waters listed in Appendix 2 of the General Permit.

**B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.**

The Village has chosen to evaluate the number of catch basins inspected and cleaned as necessary annually as an indicator for measuring the overall effectiveness of the Village's compliance with the Pollution Prevention and Good Housekeeping for Municipal Operations program requirements. The Village inspected and cleaned as necessary 151 catch basins during this reporting period.

**C. How many times was this observation measured or evaluated in this reporting period?**

			1
--	--	--	---

*(ex.: samples/participants/events)***D. Has your MS4 made progress toward this measurable goal during this reporting period?**
 Yes    No
**E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?**
 Yes    No
**F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).**

The Village plans to continue the ongoing catch basin inspection and cleaning schedule during the next reporting cycle. The Village will continue to follow the BMPs outlined in the NYSDEC Municipal Pollution Prevention and Good Housekeeping Assistance Document as necessary.

**Progress Report for Part IX.C**  
**Pathogen Impaired Watershed Improvement Strategy Areas**

PERMIT #

Waterbody Name

MS4 Name

Reporting Period Ending (mm/dd/yyyy)  /  /

Reaffirmation for No Discharge

- The Municipal Separate Storm Sewer System as defined in 40 CFR 122.26(b)(8) and (16) including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains that the  owns or operates does not have any outfalls that discharge directly or indirectly through another MS4, into the

**Watershed Status**

Please describe what your stormwater management program is doing to address the source of pathogens to the impaired waterbody

The Village has included pathogen-specific source control BMPs in their SWMP, which are discussed further below, and submitted mapping and land use data to DEC for the Ogden Pond sewershed.

If you suspect the sources of pathogens that contribute a load to this watershed through the MS4 are something other than the sources listed in the TMDL, please state what you believe to be the suspected sources and how they were determined.

The Village has no reason to conclude that there are other sources of pathogens than the ones listed in the TMDL at this time.

**Public Education & Outreach of Pathogens as the Pollutant of Concern**

1. Description of the education program.

The Village's Public Education and Outreach program incorporates topics related to the sources, impacts and reduction of pathogens. Educational materials are distributed on the Village's website and made available in print at the Village Hall. The Village has also marked storm water catch basins throughout the Village with no dumping medallions.

2. Who are the target audiences and what is the message delivered to each target audience?

Target audiences are the general public (e.g., public employees, residents, businesses). The message is that pathogens in storm water can impact their health, recreation and the local economy. A number of easily adopted source control practices are also suggested.

3. How are behavior changes being measured?

Due to the seasonal nature of many of the residents and businesses, the Village evaluates the occurrence of its programs as a measure of SWMP effectiveness. For example, the Village regularly discusses storm water issues at public meetings.

Permit # NYR20A455

4. What are the education plans and goals for the next 6 months?

The Village plans to continue implementing the established public education and outreach program requirements in the next 6 months.

**Illicit Discharge Detection and Elimination**

5. What has been done to actively look in these watersheds for Illicit discharges? Describe procedures and staff that are involved in this reconnaissance.

The Village has continued to implement its ORI program of inspecting every Village outfall once every five years, which is the responsibility of Highway and Building Department staff. Staff in other Village departments that conduct regular field activities have been instructed to keep an eye out for evidence of illicit discharges during their daily operations.

**Answer Either 6a. or 6b.**

6a.  No Illicit Discharges were discovered during this reporting period Explain how the determination for No Illicit Discharges was made

Two Village outfalls within the Village's Ogden Pond sewershed were inspected in this reporting period. Evidence of illicit discharges were not observed during the ORI inspections.

6b.  Illicit Discharges were discovered during this reporting period What has the municipality determined from the illicit discharges that have been found?

**Complete Either 7a. (Map) or 7b. (Written Response)**

7a. Attach a map showing where IDDE outfall inspections have occurred this reporting period, which outfalls have illicit discharges, and if the discharge has been removed, where the illicit connection is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

7b. Give the number of inspections performed during this reporting period. # Inspections   
(Provide municipal identification #s for all outfalls inspected)

State which outfalls have illicit discharges and whether or not the illicit discharge has been removed. Also describe where the illicit discharge is in the system and how it is entering the system (i.e. Direct connection to the MS4, overland connection, structural failure of the MS4 piping network)

Permit #

NYR20A455

**Post Construction Stormwater Management**

8. Number of Post Construction Stormwater Management Practices (SMPs) that discharge to an MS4 that drains to the listed waterbody # SMPs     0

- As part of the RFI sent by the Department in August 2016, the information in #8 has already been submitted
  - a. Describe the municipality's policy on post construction stormwater management

The Village Post-Construction Storm Water Management program addresses storm water runoff from regulated (i.e., disturbances of an acre or more) development projects. The Village recommends and encourages the use of BMPs for development projects through the SWPPP review and site plan approval process regardless of the size of disturbance. The Village considers the use of green infrastructure measures in capital improvement projects.

9. Describe the Post-Construction Stormwater Management plan and goals for the next 6 months

The Village is awaiting the revision of the TMDL for Ogden Pond and notification of the Village's individual responsibilities for pollutant load reductions through the MS4.

**Municipal Operations Pollution Prevention/Good Housekeeping**

- Non-Traditional MS4 (skip Question 10)

10a. Is pet waste an issue in the MS4 areas? If pet waste is not an issue please describe, in the box below, the reasoning behind this viewpoint.

The Village has identified the proper collection and disposal of dog waste as a concern in the Village. However due to the seasonal nature of many of the residents, dog waste is not a year-round issue.

10b. If pet waste is a problem, where has it been found to be a problem? Are there any areas where pets are known to frequent (such as parks, road ends, boat launches, marinas, trails). Are there any indications that pet waste is being disposed of improperly (ie. dumped into a catch basin)?

Approximately 72% of the Ogden Pond sewershed are areas where pet populations are expected to be in higher concentrations (i.e., residential areas). Incidences of pet waste being disposed of improperly have anecdotally decreased over the last decade.

10c. What strategies are in place to manage the proper disposal of pet waste? What strategies are planned to improve pet waste disposal practices in areas identified in need of improvement?

The Village provides education on the proper disposal of dog waste. The Village Code specifically requires dog waste in any public place, beach or street to be cleaned up and disposed of immediately. The Village Code also prohibits the disposal of pet waste in storm drains or in any manner that would allow the waste to enter any storm runoff or water body.

PERMIT #

10d. What measurable indicators are being used to help determine the effectiveness of these strategies?

The Village evaluates the occurrence and/or compliance with the dog waste laws as a measure of SWMP effectiveness. For example, the Village monitors the citations for not properly disposing of dog waste, which are rarely issued.

11a. Is the goose population an issue in the MS4 areas? If the goose population is not an issue please describe, in the box below, the reasoning behind this viewpoint.

While some geese have been occasionally observed on Village properties, the large deer population is of greater concern in the Village.

11b. If the geese are a problem, where has it been found to be a problem? Provide a description of the location or a map showing the areas of high population density of geese.

Resident Canada geese are known to favor open water and large grassy areas. These types of areas do not exist within the Village's Ogden Pond sewershed, which is primarily residential neighborhoods. Deer populations are prevalent throughout the Village.

11c. What strategies are in place to manage the population of geese on municipal properties?

Given that deer are a greater concern within the Village, the Village has implemented a culling program that allows the hunting of deer on residential land.

11d. What measurable indicators are being used to help determine the effectiveness of these strategies?

Accidents between deer and vehicles have decreased since the implementation of the culling program.
